

# EAST ATLANTA EYE SURGERY CENTER

550 Professional Dr.  
Lawrenceville, GA 30046  
P: 470-410-8120

## PRE-OP INSTRUCTIONS: Semaglutide / Liraglutide / Dulaglutide / GLP-1 Agonists *Ozempic, Wegovy, Rybelsus, Trulicity, Victoza, Saxenda, Byetta/Bydureon, Mounjaro*

---

1. If administered by injection once per week, the last dose should be given **at least one week** before surgery
2. If taken orally once per day, medication must be held **the day before AND the day of** surgery
3. Follow a **clear liquid diet** for a full **24 hours** prior to surgery arrival time (broth, jello, clear soda, fruit juice without pulp, black coffee, etc.)
4. Follow all other pre-op instructions as provided, including **nothing to eat or drink after midnight** the night before your surgery
5. If these medications are taken for management of diabetes, monitor your blood sugar level and report any value below 70 or above 350 to your doctor's office and EAESC
